FYI, please  
file R.

Mr. and Ms. Robert Keith Greene  
2405 W. Kearney  
Springfield, Missouri 65803-2032

Dear Mr. and Ms. Greene,

I was asked to respond to a storm water concern that you had about brush being placed in a drainage ditch. The area in question is north of Kearney Street and east of West Avenue.

Our records indicate that the property that the drainage ditch is on is privately owned and not a publicly maintained ditch. This means that the property owners should maintain the ditch.

My suggestion would be to identify the persons placing the brush in the ditch and ask them to remove the brush. If you can't identify the persons responsible then you or the property owners should remove the brush to ensure that storm water can flow uninhibited through the drainage ditch.

If I can be of any further help or if you want to discuss this matter further then call me at 864-1965.

Sincerely,

Stephen A. Meyer  
Superintendent of Street Maintenance
